The audit of the Company's annual financial statements for the year ended August 31, 2021 has not yet been completed. This is primarily due to two factors. First, there has been a recent change in the CFO position. Second, there is potentially a material impairment charge on the Company's initial oil extraction plant. The Company is still in the process of confirming and quantifying this impairment charge.

The Company expects to file within the extension period.
